Junior Web Developer - Intern

Problem Solving | Eager | Outgoing Personality

I am a currently studying university student at Victoria University with a passion for eCommerce and web development as a career path. I am hard-working and thrive in deadline team-oriented tasks due to my strong communications skills. I am truly eager to learn and gain very bit of experience I can from this position and would love to use those skills to give back to the team in an effective way.

WORK EXPERIENCE

Marshall Engineering

2021 August - Current

Hardware Administrator

Full time boiler-maker apprentice while designing and creating a sustainable 3.2Ghz Ethereum proof-of-work farm.

- Researched and designed how to create and effectively run mining software. Using CMD lines and windows task scheduling.
- I improved the company's internal network to create the infrastructure needed to run all 12 computers running 108 graphic processing units.

Coles Lara and Bacchus Marsh

2017 July – August 2021

Grocery Department – Fill Lead

Head Grocery Department member. Taking deliveries, splitting the stock, and effectively repacking the shelves.

- Assist and interact with customers regarding store products whilst promoting specific lines.
- Organized the delegation of stock for the fill team creating an effective fast reusable system. I personally hit and exceeded all internal company grocery KPIs.
- I worked at Coles Bacchus Marsh before moving to Lara and successfully receiving a transfer of stores.

The Computer Company Gisborne

A week in June 2017

Work Experience

Work Experience week following the owner. This was the beginning of my love for Technology.

- Help customers find solutions to Office Suite, Teams, and etc. problems with effective communication of my knowledge of the programs.
- Followed company protocols for effective removal of malware and viruses.
- Built internal company servers. Trouble shooting and teaching the team how to properly use the technology.

EDUCATION

Victoria University

Bachelor of Information Technology – Currently Studying

PROFESSIONAL SKILLS

- Photoshop.
- Understanding of copyright laws and open-source crediting.
- Strong autonomous work ethic.
- Team focused.

VOLUNTEER EXPERIENCE

Saints Basketball Bacchus Marsh

2018 February – December 2018

Coach – Under 14s

- Lead and helped my players improve. The players were good and did not have much confidence. Many feared missing more than the glory of taking the shot and hitting it. My main goal was to show them that they could win.
- By helping them and improving we went from 0 wins in our first season to 4 wins in the next season.
